

Welcome to eQuest Technologies

eQuest is leader in packaged software sales in india. We have worked with many international vendors for Indian market. eQuest provides full range of support like pre sales, sales and post sales support for all our products.

Our support team is trained to provide customization services to clients along with traditional product support.

eQuest is a leader in customization services for Atlassian products JIRA and Confluence , Flexera for Installshield and on other products like Starteam, Embarcadero etc.

eQuest is the oldest partner of Atlassian in India. We provide sales, support and Customization services.

Our clients range from banks, stock exchanges, IT houses FMCG to Govt. organisations. We have sold and customized solutions to all these categories.

Our [Eduwiki](#) is popular in Education Institutions its based on Confluence.

eQuest Technologies has a dedicated facility at Poona dedicated to Atlassian projects .

It has three offices across India i.e Mumbai, Poona and Bangalore .It has a global presence wltH officeS in Singapore and other in New Jersey.

The offices in New Jersey and Singapore provide sales and support for Atlassian.

eQuest is currently developing a number of plugins for Atlassian and these are right now only available for customers of eQuest.

eQuest offers training classes in India and on live streaming across the world.
